EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, page 1, line 2:

before "which" insert --,now abandoned,--.

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or teach the steps of connecting at least one commissure stabilizer to each of the commissures of the replacement heart valve either before or after inserting the replacement heart valve, leaving a central opening between the commissure stabilizers sufficiently sized to introduce a suturing implement therethrough. Additionally, the prior art does not disclose or teach leaving a portion of the commissure stabilizer in the body after leaving the secured heart valve in place.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
